EDUCATION

University of Nevada, Reno   Reno, NV
B.S. in Computer Science and Engineering   Expected 2019

WORK EXPERIENCE

Software Engineering Intern   Reno, NV
IGT   Nov 2017 - Present
- Utilized Angularjs, Node.js, Express, and gulp to develop an internal website which serves all of IGT's internal support team.
- Restructured the internal website by refactoring code in the front and backend to be cleaner and efficient
- Developed a heatmap which displays internal information on a map using Google Maps API to help internal support track data
- Coordinated daily with the software engineering team using the Agile/Scrum development process which helps dictate workload and workflow

PROJECTS

Discord Music Bot – *JavaScript, Node.js*   Sept 2017
antbnt.me/projects/quickeat
- Backend Node.js server that serves audio from videos on YouTube in Discord channels
- Processes YouTube links by downloading them and streams them as audio only through Discord
- Ability to queue songs and play them back-to-back seamlessly

Restaurant Finder App – *Java, Gradle*   May 2015
antbnt.me/projects/discord
- Android application to find closest restaurants within a mile
- Implemented Google Maps Android API to request user's location and places
- User can view detailed data from a selected restaurant such as distance, number, or location

SKILLS

- Proficient: C++, Javascript, SQL, HTML, and CSS
- Familiar with: C, Java, Python, C#, and Bash
- Other Technology: Node.js, Express, Git/Github, Angular 4/Angularjs, Bower, npm, Gulp, Webpack, Bootstrap, JQuery, MSSQL, LaTeX, and Jira

EXTRACURRICULAR ACTIVITIES

Association for Computing Machinery – Reno, NV   Aug 2014 – Present
Member
- Participated in CS competitions such as ACM-ICPC
